

I am a **Biomedical AI Scientist** with experience in medical image analysis, multi-modal clinical AI, explainable AI, and robust representation learning. My work focuses on developing clinically meaningful machine learning systems for image data and structured health data, with a particular emphasis on generalization, interpretability, and clinical applicability.

My **research interests** include: medical image analysis; multimodal clinical AI; trustworthy and explainable AI; robustness and generalization; representation learning; clinical decision support; resource-efficient AI in healthcare.

EDUCATION

Ph. D. in Cognitive Science with a focus on Deep Neural Representation Learning Universität Osnabrück Research Training Group in Computational Cognition (DFG-funded)	11/2025 - 11/2021
M. Sc. in Mathematical Sciences African Institute for Mathematical Sciences AIMS / Mastercard Foundation Scholarship	07/2021 - 09/2020
M. Sc. in Computer Science & Engineering University of Dhaka Queen Elizabeth Commonwealth Scholarship	07/2018 - 08/2020
B. Sc. In Computer Science University of Makeni Undergraduate Merit Scholarship	09/2012 - 02/2017

CONTINUING EDUCATION

AI for Medicine Specialization DeepLearning.AI	2026
AI for Healthcare Specialization Stanford	2025
Deep Learning Bootcamp MUST, North-West University, SA	2025
Confidentiality and Data Protection in Health Research CITI	2025
AI Engineering Prof. Certificate IBM	2023
Data Science Prof. Certificate IBM	2023
Python Programming and Data Structures Coursera, University of Michigan	2023
Mediterranean Machine Learning School Università Milano Bicocca, Italien	2022
Deep Learning Program Neuromatch Academy	2022

PROFESSIONAL EXPERIENCE

Co-founder and Biomedical AI Researcher AI in NTD Consortium / Osnabrück	12/2024 – present
- Co-founded and lead a research consortium with 33 interdisciplinary members from 21 institutions - With the goal of establishing a global interdisciplinary research network leading to the creation of Hubs of Excellence - Coordination of work packages and milestones for members - Roadmap creation and management - Coordination and revision of draft manuscripts	
Research Assistant (PhD) University of Osnabrück / Osnabrück	11/2021 – 12/2024
- Research in deep representation learning for AI models, including self-supervised learning methods such as contrastive, generative, and joint-embedding learning - Development of joint-embedding, contrastive, and generative models for disentangled representation learning, such as Barlow Twins, VAEs, or supervised contrastive learning - Improvement of data processing efficiency by at least 20% and model accuracy by at least 25% for model target tasks - Curation of the SynSpeech datasets and maintenance of open-source access - Presentations and seminars to showcase your own research, e.g., NeurIPS (2023), German Conference on Artificial Intelligence Doctoral Consortium (2023), ICLR (2024) - Supervision of master's students' research	
Research Assistant University of Makeni / Makeni, Sierra Leone	02/2017 – 07/2018
- Taught of 4 different computer science courses with approximately 40 students per course - Developed course materials, homework assignments, and exams	
Lecturer Limkokwing University of Creative Technology / Freetown, Sierra Leone	01/2018 – 07/2018
Taught courses on programming logic and design for approximately 120 students in classes of approximately 40 students	

HARD SKILLS

Machine Learning / Deep Learning

PyTorch, TensorFlow/Keras, scikit-learn, Transformers,

Numerical and Scientific Computing

NumPy, Pandas, Matplotlib, Seaborn

Programming Languages

Python, R, C/C++, SQL

Systems

Linux; Windows, High Performance Computing with SLURM (HPC), Grid Computing with Oracle Sun Grid Engine, Docker, GCP, GPU Computing

Neuroimaging Data & Tools

BIDS, FSL, FreeSurfer

Medical Image Processing

OpenCV, SimpleITK, NiBabel, Pydicom, ANTsPy, scikit-image

Explainable, Responsible, and Trustworthy AI

SHAP, Captum, Fairlearn, AIF360, LIME, TorchCAM, iNNvestigate

SOFT SKILLS

Organization and Project Management

Communication

Personal Responsibility

Independent working and Self-responsibility

Solution-Oriented Problem-solving

Flexibility and Adaptability

Teamwork and Collaboration

LANGUAGES

English	Native-level proficiency
German	Fluent
French	Basic knowledge
Krio	Native
Kono	Native

SCHOLARSHIPS

CIFAR Deep Learning and
Reinforcement Learning (DLRL)
Summer School Inclusive AI Fully-
funded Scholarship, Canada, 2024
Deep Learning Indaba Fully-funded
Scholarship, 2023
Cambridge Ellis Machine Learning
Summer School Fully-funded
Scholarship, 2022
AIMS / Mastercard Foundation
Scholarship 2020 – 2021
Queen Elizabeth Commonwealth
Fully-funded Scholarship, 2018 -
2020
Undergraduate Merit Scholarship,
2013 – 2017

TALKS AND PRESENTATIONS (SELECTED)

Multimodal Representation for Robustness and Generalization in Biomedical Applications, Max Delbrück Center for Molecular Medicine, Germany, 2026
Artificial Intelligence and Its Role in Shaping Our Future, University of Makeni Computer Science Alumni Forum, Sierra Leone, 2025.
Multimodal Federated Learning for Robust Lung Cancer Prognosis, Fraunhofer SCAI, Germany, 2025.
Trustworthy Healthcare AI for Mental Health Risk Prediction, Neurobiology Research Unit, Copenhagen University Hospital, Denmark, 2024.
Assessing Explainability in Deep Learning for Medical Image Analysis, Fraunhofer SCAI, Germany, 2024.
Causal Representation Learning, Computer Vision Colloquium, Osnabrück University, Germany, 2024.
Learning Disentangled Audio Representations through Controlled Synthesis, Notable ICLR Tiny Papers, 2024.

ACADEMIC ENGAGEMENT & MEMBERSHIPS

Member of the Master's Program in Mathematical Sciences in Mathematical Epidemiology, Scholarship Selection Committee of the African Institute for Mathematical Sciences and the Africa Health Collaborative	2026
Member of the Deep Learning Indaba Kambule Doctoral Award Committee	2025
Co-organizer of the Bridging Biological and Artificial Neural Networks workshop and the Deep Representation Learning Seminar at the University of Osnabrück	2022 2023/24
Peer review of manuscripts for Scientific Reports; BMC Medical Informatics and Decision Making; Healthcare Technology Letters; npj journals; ICLR; ICML; MusIML Workshop; Deep Learning Indaba.	Since 2023
Approved access to data from Demographic and Health Surveys (DHS) for research purposes in the field of reliable disease diagnosis.	2026
Access authorization and training for controlled biomedical datasets and platforms , including UK Biobank/MRC, PhysioNet, LONI IDA, and the German FDPG framework.	2025
Member of the MICCAI Society	Since 2023
Member of Black in AI	Since 2022
Member of Deep Learning Indaba	Since 2022
Member of IEEE	Since 2019
Member of AIMS Alumni Netzwerk	Since 2021
